Education (EDU)

EDU 115 TECHNOLOGY INTEGRATION INTO THE CLASSROOM CURRICULUM This course provides an overview of current computer applications and models of educational technology for the classroom through a hands-on project-based approach. Students will be able to creatively and effectively integrate the use of technology in the K-12 curriculum. Emphasis will be placed on learning how to use current technologies in a classroom setting. Particular focus will be placed on the pedagogy and how to effectively implement technology tools in the classroom to instruct students. Course activities include the use of Microsoft Office applications, educational software, and Internet research. This course includes two lecture and two lab hours. This course fulfills the general studies technology requirement only for teacher education students.	3	EDU 401 METHODS OF TEACHING FINE ARTS This course prepares students with the understanding, concepts, techniques, and materials of the visual arts, music, drama, and dance. Students understand the cultural dimensions of the arts and the interrelationships among the art forms. Students are given the tools to promote artistic development, appreciation, and performance. Students will be able to use various tools, including technology, to create, analyze and perform works of art. Prerequisite: Acceptance into the Teacher Education Program.	3
EDU 205 MULTICULTURAL EDUCATION Students will examine the social and educational issues that affect the schooling of P-12 students from culturally diverse backgrounds. Course content will address particular issues such as ethnicity and race, socioeconomic status, gender, academic exceptionalities, sexuality, language, religion, and geographical location. Students will develop personal philosophies and apply models of multicultural education to various grade levels. Students will demonstrate effective teaching and learning strategies that are culturally relevant for P-12 students.	3	EDU 405 MIDDLE GRADES SCHOOLING AND PHILOSOPHIES Focuses on the developmental characteristics of early adolescents and instructional methods for designing and teaching developmentally appropriate content programs in middle schools. including content area reading instruction. The role of the middle school teacher is discussed along with the academic, social, and emotional needs of the middle school student.	3
EDU 210 INTRODUCTION TO TEACHING (W) This course is an introduction to the foundations of American education and the profession of teaching and professional practice. School organization, teaching dispositions, history and philosophy of education, and legal issues are explored through classroom discussion and direct observation in K-12 school settings. This course includes a 24 hour eight-week field component that requires weekly observations in assigned school settings.	3	EDU 407 WORKSHOPS An intensive course for 5 days (or equivalent) presented by guest instructors and regular staff members. Does not count toward a major.	1
EDU 350 EDUCATIONAL PSYCHOLOGY: HUMAN GROWTH AND LEARNING This course provides an examination of the major theories and research studies that address how individuals grow, develop, and learn. Students will explore the practical applications of providing learning opportunities in school settings that support the cognitive, social, emotional, moral/ethical, and physical development of all learners. Same as PSY 350.	3	EDU 409 INTRODUCTION TO INSTRUCTIONAL PLANNING AND DELIVERY (W) This course prepares teacher candidates with strategies to plan and design instruction based upon knowledge of the content, students, community, and curriculum goals. The teacher candidates develop lessons for delivery in the classroom utilizing a variety of instructional strategies needed to enhance the development of critical thinking and problem-solving skills, which are required in the current standards-based curriculum. Prerequisite: Acceptance into the Teacher Education Program.	3
EDU 380-389 TOPICS IN EDUCATION This course addresses special topics in education that are not ordinarily covered by other courses offered by the division. Courses offered may include current issues in education such as assessment, evaluation, gifted education, multi-cultural diversity, etc. Prerequisite: Admission to the Teacher Education Program or instructor consent.	1-3	EDU 412 METHODS OF TEACHING READING AND WRITING IN THE CONTENT AREAS This course focuses on methods to enable interaction with content texts. Emphasis is on strategies for teaching vocabulary, concepts, comprehension, reasoning, and organization in specialty subject areas at the secondary and special (K-12) levels. Prerequisite: Admission to the Teacher Education Program.	2
		EDU 420 THE LEARNING ENVIRONMENT This course prepares teacher candidates to understand what fuels individual/group motivation and how to use that knowledge to create a learning environment that encourages positive social interaction, active learning, and self-motivation to learn/achieve. Prerequisite: Admission to the Teacher Education Program.	3

Education (EDU)

EDU 429 CHILDREN'S LITERATURE FOR ELEMENTARY TEACHERS In this class, students will research diverse children's literature and authors of various literary genres. Learning theories, instructional delivery, collaborative relationships, and technology connected to children's literature will be emphasized. National (International Reading Association and National Council of Teachers of English) and state standards (Common Core State Standards) connected to the implementation of a children's literature curriculum will be highlighted. Children's literature in traditional print, online, and digital formats are part of this course. Prerequisite: Acceptance into the Teacher Education Program.	3	EDU 442 TEACHING SCIENCE IN THE ELEMENTARY CLASSROOM This course explores the theory and practice of instructional design specific to the teaching and learning of science. Students will examine the core concepts of earth, physical, and biological sciences through use of science practices appropriate for the elementary classroom. The focus will be on instructional strategies to engage all students in science learning and problem-solving. Prerequisite: Admission to the Teacher Education Program.	3
EDU 430 METHODS OF EARLY LITERACY INSTRUCTION (W) This course examines early literacy development through evidence-based instructional practices. Candidates will learn to assess and teach foundational reading skills, including oral language, print awareness, letter knowledge, phonological and phonemic awareness, phonics, decoding, and word recognition. Instructional planning emphasizes the use of assessment data to deliver differentiated, explicit, and systematic instruction within a Multi-Tiered System of Supports (MTSS), addressing the needs of all learners, including English learners and students with reading difficulties. Prerequisite: Acceptance to the Teacher Education Program.	3	EDU 445 LEARNING AND TEACHING LANGUAGE ARTS (W) In this class, teacher candidates will explore the writing, speaking, listening, and language strands of the Common Core State Standards. Instructional delivery will closely model the foundations set forth by the National Council of Teachers of English. Teacher candidates will develop effective teaching strategies via observation requirements, lesson plans, daily oral language, and peer teaching assignments. Reflective measures such as professional development experiences, lesson plan reflections and designing an ELA classroom learning foundation will be utilized to become better-prepared teachers. In addition, informal and formal assessments in ELA will be explored. Prerequisite: Admission to the Teacher Education Program.	3
EDU 435 METHODS OF CONTENT AREA LITERACY INSTRUCTION IN THE ELEMENTARY GRADES This course examines content area reading development through evidence-based instructional practices. Candidates will learn to assess and teach reading fluency, vocabulary, and comprehension strategies that help students navigate complex literary and informational texts and support content learning across subject areas. The course also addresses methods for building students' background knowledge to enhance comprehension and engagement with content. Instructional planning emphasizes using assessment data to provide differentiated, explicit, and systematic instruction within a Multi-Tiered System of Supports (MTSS), addressing the needs of all learners, including English learners and students with reading difficulties. Prerequisite: Admission to the Teacher Education Program.	2	EDU 446 METHODS OF TEACHING AND LEARNING SOCIAL SCIENCE IN THE ELEMENTARY CLASSROOM This course is designed to introduce teacher candidates to the methods of teaching and learning social science in the elementary classroom. Candidates will demonstrate competency in curriculum development and instructional planning of integrated social science content that effectively meets the needs of diverse learners. Candidates will also exhibit instructional delivery techniques that focus on critical thinking, problem solving, and performance as well as assessment strategies appropriate to various developmental levels and cultural backgrounds. Prerequisite: Admission to the Teacher Education Program.	3
EDU 441 TEACHING ELEMENTARY MATHEMATICS This course highlights the structure and process of teaching mathematics in the elementary school with alignment to the Common Core Standards. Lesson topics emphasize combating mathematics anxiety, developing various instructional strategies (including Singapore mathematics methods), encouraging proper use of academic vocabulary, promoting metacognition through mental mathematics and all problem solving experiences, integrating appropriate mathematics manipulatives and technology in developmentally appropriate ways, and creating a variety of assessment tools to satisfy differentiation of instruction. Discovery learning instruction will be modeled, as well as a variety of collaboration models for sharing mathematical ideas, highlighting the needs of students with exceptionalities and those from disadvantaged or culturally different backgrounds. Prerequisite: Admission to the Teacher Education Program.	3	EDU 451 METHODS OF TEACHING PHYSICAL EDUCATION (K-12) Physical Education candidates develop knowledge and skills for planning, implementing and evaluating appropriate effective physical education progressions and programs for grades K-12. The course will focus on knowledge skills related to effective instructional strategies, efficient management and organizational principals, and motivational techniques specific to teaching physical education. Does not count toward a major in Physical Education. This course should be taken during the semester preceding student teaching. Prerequisite: Admission to the Teacher Education Program.	3
		EDU 453 TEACHING ENGLISH LANGUAGE LEARNERS This course addresses the concepts, research and best practices for planning and implementing effective instruction to meet the needs of English language learners in a supportive environment. The appropriate use of materials and methods that are culturally responsive, academically rigorous and developmentally appropriate will be examined.	3
