This major provides a foundation in educational theory and practice. Students pursuing this degree may be interested in working in educational departments of museums, zoos, hospitals, churches, or other institutions. This major is unique to each student, with the program of study designed by the student in collaboration with the School of Education advisor to determine specific coursework appropriate to the individual student’s academic and professional goals. An educational studies degree does not meet the requirements for teacher licensure in the State of Illinois and is not sufficient preparation for teaching in the K-12 public school setting. For information on degree programs leading to teaching licensure, refer to the School of Education teacher licensure sections in the catalog. If a student is planning on specializing in a specific content area, e.g. history, biology, an undergraduate degree in that content area should be considered.
