

Forensic Studies (FOR)

Division of Social Sciences

The forensic studies minor can be focused in chemistry, psychology, sociology, or other disciplines. The forensic studies minor would be beneficial to students in any major interested in graduate work or careers related to forensics or crime.

Please note, students wishing to pursue graduate work or advanced study should research the requirements and prerequisites for their desired programs early enough to ensure that additional coursework can be added, if needed. This minor is intended to provide an introduction, but additional courses will be required for admission to specific graduate programs.

To obtain a minor in forensic studies, students must earn a cumulative GPA of at least 2.50 in all courses applied to the minor. Relevant internship hours may be substituted for three credit hours of the minor, and no more than six credit hours can be taken from any one discipline for the additional nine required hours.

FORENSIC STUDIES MINOR REQUIREMENTS 22 crs.
