

Supply Chain Management and Logistics (SCL)

- Major: 61 credit hours
- Minor: 25 credit hours
- Major/Minor: GPA required for graduation: 2.25

PROGRAM REQUIREMENTS:

- CAPSTONE: Business Strategy and Policy (BUS 450)

Description of Major: Supply chain management and logistics consists of a set of methodologies used to integrate and manage efficiently systems of people, resources, and information. Supply chain management and logistics enables the effective and efficient flow of materials, finances, and information from suppliers, manufacturers, wholesalers, distributors, and retailers to the end-user and back again. The purpose is to optimize the supply chain and logistics resources in the most cost-effective approach, enabling organizations to create a sustainable competitive edge.

Student Learning Outcomes

Students will:

- Apply critical thought regarding the environment of business.
- Demonstrate knowledge of the major concepts in the functional areas of business.
- Determine the value to customers, markets, and other stakeholders through the application of standard frameworks and models, which encompass supply chain management and logistics process analysis and innovation.
- Assess purchasing, procurement, sourcing, distribution, and warehousing activities effects on the supply chain and logistics management.

Preparation: The supply chain management and logistics major is designed to prepare students for a professional career in the most dynamic and comprehensive field in industry, supply chain management and logistics. Students will possess the knowledge, skills, and abilities for career opportunities in the supply chain management and logistics field in positions such as operations manager, logistics analyst, supply chain manager, purchasing manager, logistics manager, and storage and distribution manager.
