General Education Requirements - Some courses fulfill general education as well as major requirements. See catalog for accepted courses for general education:

-Accounting students must take Business Ethics so they should NOT be placed in the regular ethics course.

-The accounting major includes three writing intensive courses so students do not need to take electives to satisfy this requirement.

-Accounting majors will take economics which will count as one of their three disciplines under the Economics/Philosophy/Sociology/Political Science requirement.

-Accounting students must take Statistics which will count as their mathematics requirement.

-It is strongly suggested that MGT/MKT 340 be taken to satisfy the General Education Cross Cultural Studies requirement.

If students choose to double major and/or minor, the following catalog rule applies: any course applied toward the completion of one major or minor may not also be applied toward the fulfillment of elective requirements in another major or minor.
