Internship in Exercise Science and Sports Performance

This session will provide information about the experience and what the presenters learned during their internship.

Presenters: John Alvin, Samantha Barrientos, Shayeen Edwards, Chase Haselhorst, Ben Muller, Skylar Paulson

Faculty Sponsor: Jordan Fark

Location: PAC 114

Honors Thesis Presentation

On the Streets and Between the Sheets: A Correlational Analysis of Interpersonal Values, Gender Attitudes, and Sexual Consent Behaviors

This study examines the relationships between interpersonal communication tactics, feelings towards traditional and egalitarian gender norms, and personal thoughts and actions surrounding sexual consent. Much research has been done on the interaction of gender and peer interactions; however, this study asks whether these findings also influence issues surrounding sexual consent.

Presenter: Hannah Zickefoose

Thesis Mentor: Dr. J.L. Kemp

Location: PAC 115

United States Environmental History

This session will provide information about topics in the environmental history of the United States based on specific research conducted by each student.

Presenters: Teri E. Cocke, Emma Eldridge, Jake Freeman, Jawaun Jackson, Jacob Louis, Megan Marks, Taylor Schmitt

Faculty Sponsor: Dr. Patrick Folk

Location: PAC 116

Prophecy of Bonhoeffer and the "Nones"

This presentation is about a research paper presented at the Midwest American Academy of Religion annual conference in 2018. The paper is about Dietrich Bonhoeffer and his idea of Religionless Christianity. The main question of the paper is, "What exactly is

Religionless Christianity and how does it apply to the contemporary society?"

Presenter: Matthew Bachman

Faculty Sponsor: Dr. Duane Olson

Location: PAC 117

**# Expand Your Mind and Your Horizons:
Intellectual, Emotional, and Environmental
Wellness**

Are your emotions affecting your academic performance? What about desalination or raw water? How you think, or what you eat and drink is a lot to think about. Maybe you need a wellness trip. This session will share the latest on how these factors could be affecting you. We will focus on the intellectual, emotional, and environmental dimensions of wellness.

Presenters: Dana DiPasquale, Alesha Ingram, Bailey Rhoades, Sydney Schrader

Faculty Sponsor: Dr. Karan Onstott

Location: PAC 214

Honors Thesis Presentation

Chlorine Determinations of the Water of Southern Illinois

The presenter is determining the total, free, and combined chlorine levels of tap water for several different areas of Southern Illinois. The goal is to measure accurately the combined chlorine amount to determine the effect that environmental factors such as farming or industry are having upon the nitrogen levels within tap water. Combined chlorine refers to chlorine that has merged with nitrogen upon addition to the water thus forming monochloramine, dichloramine, and trichloramine. Chlorine is used for the purification of water so that water is safe for public use.

Presenter: Elijah Phillips

Thesis Mentor: Dr. Feza Ozturk

Location: PAC 215

Honors Thesis Presentation

The Existence of Antibiotic Resistant Bacteria in Environmental Sources

Bacteria from a soil source will be analyzed and a bacillus species identified to experimentally test its initial ability to grow in the presence of ampicillin, a commonly used antibiotic. Bacteria determined to be resistant will be introduced to increasing levels of ampicillin to establish the extent to which bacteria can become resistant upon exposure to antibiotics.

Presenter: Amanda Geiger

Thesis Mentor: Dr. Robb VanPutte

Location: PAC 216

Honors Thesis Presentation

How Does Eye Color Affect Reaction Time?

This study analyzes whether eye color is correlated with reaction time. It uses a computer program to test the hypothesis that darker-eyed individuals would have faster reaction times than lighter-eyed individuals.

Presenter: David Junge

Thesis Mentor: Dr. Adam Tournier

Location: PAC 217

Effects of a Plant-Based Diet on Anaerobic Collegiate Athletes

This session will provide information about a research proposal that students generated in conjunction with their research methods capstone course. Presenters will provide a rationale for the research, state their specific question and hypothesis, and describe the methodology to be used and data to be collected, along with a proposed analysis. Students will present and discuss hypothetical data.

Presenters: Lucendia Adams, Paige Allan, Brittini Futrell, Jordyn Looman

Faculty Sponsor: Dr. Robb VanPutte

Location: PAC 218

Difficult Conversations: Narratives of Hate, Race, and Learning Disabilities

Three original qualitative communication research studies will be presented. Thomas Baca will present his research exploring how students talk about hate speech on campus. Joshua Cobbins will discuss his research on the experiences of women of color on college campuses. Haley Doersam will discuss her research on how students with learning disabilities discuss their accommodations with their instructors.

Presenters: Thomas Baca, Joshua Cobbins, Haley Doersam

Faculty Sponsor: Dr. Richard Murphy

Location: PAC 220

Effects of Dopants (N and P) and Synthesis Conditions on the Size and Quantum Yield of Carbon Quantum Dots

Recently, a new type of quantum dots, coined as carbon quantum dots (CQDs), has been the focus of

research in this field. The fluorescence emission color of CQDs is tunable due to the variation in band gaps based on the size of the quantum dot. After varying synthesis conditions to optimize fluorescence intensity, CQDs were prepared by doping with nitrogen and phosphorous to observe the variation in fluorescence wavelength.

Benefits of the Arts in Education

The value of arts classes (visual art, performing art, and literary art) in elementary and secondary education is often overlooked. Through the arts, students learn a variety of skills, such as creative thinking and problem solving, that help students excel in other subjects of study. The benefits of teaching students the arts are extraordinary, making the value of arts classes something that should be embraced.
