1 COGNIZANT of the amount of children being unwillingly married, whether due to
2 tradition, wealth circumstances, or societal norms where young girls struggle powerlessly
3 against their forced marriages that are often times with adult men, with one in five girls being
4 married before the age 18 worldwide, and

5
6 HAVING CONSIDERED that child marriage can stem from levels of poverty, where a young
7 girl may be forced into a marriage to benefit her family financially, with families of the bride
8 seeking what is called a 'bride price' which is a tradition where a sum of money or other
9 goods are provided by the groom or his family to the family of the bride, and

10
11 TAKING NOTE of the fact that child marriage is more likely to happen in a more extreme
12 patriarchal society, where young girls are treated as less because of their sex, and are held as
13 valuable by adult men because of their status as a young virgin, with the practice of child
14 marriage coordinating with predominantly patriarchal regions, such as South Asia, the Middle
15 East, and sub-Saharan Africa, and

16
17 CONSCIOUS of the cultural and traditional factors that play into child marriage, with
18 families in particular regions wanting to preserve their 'honor' by marrying their children into
19 a successful family, or a bride's family wanting to marry their bride young to make her more
20 'appealing' due to her being a virgin, in fact, in some areas, a common practice is to mutilate
21 a girl's genitalia, as it is seen as a rite of passage into womanhood, and makes her a more
22 appealing bride;

23
24 1) URGES nations with high child marriage rates to enforce laws against child marriage
25 more, as a lot of the time, these laws exist, but are severely undermined to the point
26 where the laws no longer threaten individuals who practice child marriage, increasing
27 enforcement will not only stop a lot more child marriage cases, but bring child
28 marriage rates down for the future;

29
30 2) SUGGESTS funding organizations to track down and prosecute individuals heavily
31 involved in child marriage, bringing them to justice, while warning others such
32 families considering child or forced marriage to not follow the same ways of practice
33 as before;

34
35 3) STRONGLY ADVOCATES for the creation or increased funding of groups by the
36 United Nations to rescue children from early or forced marriages providing the
37 prematurely married children a safe refuge from the horrific life as a child bride,
38 decreasing the number of child brides, while also preventing child marriage from
39 continuing to the future generations and remaining as a tradition.

1. EMPHASIZING the fact that if we want to start to see a decrease in early and forced
2. child marriages, we as the UN need to start enforcing ways to keep these marriages from
3. happening.
- 4.
5. ACKNOWLEDGING that although Greece has been a large part of the problem that is
6. child marriage, Greece as a whole is committed to trying to end child, early, and forced
7. marriage. Greece's approach is a combination of legal reforms, international partnerships,
8. and social awareness campaigns, so we can address the root of the problem and also
9. provide outreach to help support survivors.
- 10.
11. AWARE that studies show that in the past years, about 37,058 marriages have taken
12. place between people under the age of 19. Out of all of those, at least 835 marriages have
13. involved at least one person under the age of 15. Out of 358 survivors of human
14. trafficking, 68 of them were children, 34 of whom were unaccompanied.
- 15.
16. CONCERNED that these repercussions of child marriage are severe, impacting all parts
17. of a child's life. Girls, who most of the time bear the brunt of this practice, tend to
18. encounter multiple severe health dangers, including risks associated with early
19. pregnancies and childbirth. Most child marriages tend to put a halt to girl's education,
20. curtailing her prospects and perpetuating poverty cycles.
- 21.

23. comprehensive strategy that encompasses a legal reform, and community involvement.
24. These reforms can consist of addressing legal loopholes that help communities get away
25. with doing this. Ways that we as a committee can get the community to understand the
